2. Name and address of the manufacturer

RATIOFORM IMBALLAGGI SRL
VIA BISCEGLIE, 66-68
20152 – MILANO – MI (ITALIA)

3. Sole Responsibility

This declaration of conformity is issued under the sole responsibility of the manufacturer. The manufacturer indicated above assumes responsibility for the conformity of the packaging covered by this declaration with the applicable requirements of Regulation (EU) 2025/40.

4. Subject matter of the declaration

- **Description**: Single-use packaging intended for recycling (corrugated boxes of different sizes).
- **Use**: The packaging is disposable, with a unit weight of 0.15 to 0.94 kg, intended for the packaging of small metal parts of various kinds.

- **Traceability**: Traceability is guaranteed through the batch code and company management system.

5. Union harmonisation legislation

The subject matter of the declaration referred to in point 4 shall be in accordance with the relevant Union harmonisation legislation:

- **Regulation (EU) 2025/40** on packaging and packaging waste (PPWR).

6. Harmonised standards and technical specifications

- Essential requirements on packaging and packaging waste applicable in the transitional phase.
- For PFAS, compliance was assessed on the basis of analytical data and declarations of conformity submitted by suppliers in the supply chain.

7. Additional information

We certify that the materials described above comply with the requirements of Regulation (EU) 2025/40 (PPWR) and in particular:

- **Article 5 – Limits for heavy metals**: The total concentration of lead, cadmium, mercury and hexavalent chromium is less than 100 mg/kg (ppm).
- **Article 5 – PFAS:** PFAS substances are not intentionally added in the packaging production cycle, in accordance with the general restrictions on substances of concern provided for in the Regulation.
- **Article 5 – Substances of concern (REACH):** The water-based flexographic inks and vinyl adhesives used comply with Regulation (EC) No. 1907/2006.

The supporting technical assessment, including analytical data, supply chain information and design assessments, shall be kept at the manufacturer's premises and shall be made available to the competent authorities upon request.
