Environmental Packaging Labeling

In compliance with European Directive and national environmental regulations, below is the detailed list of material codes and waste sorting instructions for the packaging used in our shipments and supplies.

Packaging Type	Specific Component	Material Coding (Decision 129/97/EC)	Waste Collection Channel	Note for the Customer
Die-cut boxes	Solid or corrugated cardboard	**PAP 20** or **PAP 21** (Paper)	**Paper Collection**	Flatten the box before disposal.
Polyethylene bags	Protective bags and pouches	**PE-LD 04** (Plastic)	**Plastic Collection**	Empty completely before recycling.
LDPE 04 poly bags	Specific poly bags and pouches	**PE-LD 04** (Plastic)	**Plastic Collection**	Empty completely before recycling.
LLDPE stretch film	Pallet wrapping film	**PE-LD 04** (Plastic)	**Plastic Collection**	Compress to reduce volume.
BOPP adhesive tape	Biaxially oriented polypropylene tape	**PP 05** (Plastic)	**Plastic Collection**	Dispose of in the plastic recycling bin.
Crepe paper tape	Paper-based adhesive tape	**PAP 22** (Paper)	**Paper Collection**	If applied to cardboard, it can be recycled with paper.
Paper tag + acrylic glue	Applied identification tag	**PAP 22** (Paper)	**Paper Collection**	Acrylic adhesive does not affect paper recycling.
Metal strapping	Heavy-duty binding strap	**FE 40** (Steel)	**Metal Collection**	Dispose of in metal/aluminum bins.
Air gun staples	Metal closing	**FE 40** (Steel)	**Metal /**	If embedded in

	staples		**Residual Waste**	cardboard, industrial recycling processes will separate them.
Wooden pallets	Support pallets / Skids	**FOR 50** (Wood)	**Recycling Depot / B2B Loop**	Deliver to wood recycling areas or manage via reuse circuits.
Cardboard/Paper separators	Internal layer pad or divider	**PAP 20** or **PAP 21** (Paper)	**Paper Collection**	100% recyclable with paper.
Silica gel bags	Desiccant / Moisture absorber	**TEX 62** or **PAP 22** or **C/PAP 81** (Pouch)	**Residual Waste (Non-recyclable)**	The inner silica gel is non-recyclable and goes into general waste.
Zipper bags	Resealable zip/slider bags	**PE-LD 04** (Plastic)	**Plastic Collection**	Empty completely. No need to separate the zipper if it is the same material.
Thermoformed blister packs	Valve or shaped tray	**PET 01 or PVC 03 or PS 06 (Plastic)**	**B2B Loop**	Durable and reusable packaging (B2B circuit) to be returned after use
Plastic boxes	Various shapes and sizes	High Density Polyethylene **HDPE 2** or polypropylene **PP**	**B2B Loop**	Durable and reusable packaging (B2B circuit) to be returned after use
Metal boxes	Various shapes and sizes	**FE 40 steel/ Aluminium**	**B2B Loop**	Durable and reusable packaging (B2B circuit) to be returned after use

General note for the customer

Please empty all packaging of any residues before disposal and always verify the specific waste management regulations of your local municipality or country, as sorting rules may vary
